Work Experience

VanOnGo (Android Engineer)
Apr 2023 - Present (9m)

1) Supported and maintained two high-load Android applications,
2) Responsible for developing, maintaining features, and bug fixing,
3) Worked extensively with Kotlin, Coroutine Flow, Jetpack Compose,
4) 🏗️ Focused on system design and efficient code implementation

alp.com (Android Engineer)
Dec 2022 - Mar 2023 (4m)

1) Supported and maintained high-load, multi-module Android applications,
2) Focused on feature development, improvements, and issue resolution,
3) Utilized Kotlin, Coroutine Flow, Jetpack Compose, MVI for app development,
4) 🏗️ Specialized in UI design and system architecture

Axles (Android Engineer)
Jul 2020 - Dec 2022 (2y,6m)

1) Led feature development and maintenance,
2) Managed project roadmaps, feature investigations, app releases,
3) Supported operations, enhancing app versatility,
4) ⚙️ Configured CI/CD environments using various platforms,
5) 🛠️ Advanced skills in Kotlin, Coroutine Flow, Retrofit, Dagger2, Koin, ExoPlayer; tackled redesigns and migrations

Trexoz (Mobile Engineer)
Oct 2019 - Jul 2020 (10m)

1) Led dual app development projects,
2) Tailored apps to specific client requirements,
3) Enhanced UI and backend for apps,
4) 🏗️ Gained skills in app architecture with LiveData, MVVM, Kotlin, Data Binding,
5) 📍 Implemented features with Google Maps and advanced UI components

Infotechcentre (Trainee Engineer)
Jan 2019 - Oct 2019 (10m)

1) Developed Android apps using Kotlin and Java,
2) Created user-friendly UI for documents and data,
3) Integrated apps with IoT, merging software and hardware,
4) 🏗️ Built solid foundation in practical software engineering,
5) 🛠️ Used Kotlin, Java, Volley, AsyncTasks, MySQL for expertise

Education

WUNU, Ukraine
Advanced Computer Integrated Technologies (2016-2020)

Languages

Ukrainian   English

I'm Nazar, an **Android software engineer** with over 4 years of experience in diverse sectors like video media production 🎥, utility management 🔧, transport logistics 🚚, and fintech 💰. Skilled in setting up CI/CD systems ⚙️ and adept at identifying, researching, and resolving complex technical issues 🛠️, I ensure optimal functionality. I also excel in professional UI building, crafting precise and user-friendly interfaces 👷 that enhance the overall app experience 📱.

Skills

Kotlin, Java, Android SDK, Android Jetpack, Jetpack Compose, Kotlin Coroutines, Gradle, Git, REST API, CI/CD, Camera 2, MV*, Retrofit 2, Room, Flow, LiveData, Dagger/Hilt/Koin, Firebase, Json.
